My proposal is based on my teams pressing up to quickly recover the ball.

When I have it, I attack directly or by circulating the ball side by side to find the unbalance by the bands and create goal situations.

All the training sessions are oriented towards my game system which will be explained by means of images for its correct interpretation.

To have an idea and be able to support it at all times is my ultimate goal for the team.

Professional experience as Coach

Team	Country	Year
Chavelines	 Peru	2020 - 2021

Opening tournament 2020
